COMMERCIAL-GRADE CONSTRUCTION

Engineered for Pediatric Clinic Durability

Every Tony Train is built with heavy-duty, medical-grade surfaces designed to withstand the demands of high-volume pediatric clinics. A 2" thick high-density foam cushion provides comfort and support during every exam. The retractable footrest extends the table to a full 68" patient length, accommodating growing patients with ease. Recessed handles provide smooth, snag-free operation, while easy-to-sterilize surfaces support rigorous infection control protocols in busy clinical environments.
